Three Marshall managers named 'Meritorious Executives'

by Jack Robertson

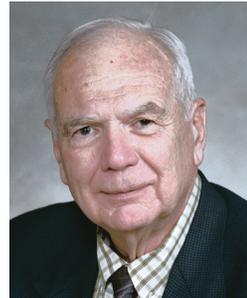

Three Marshall Center leaders have received one of the nation's highest honors for government service work, the Presidential Rank Award.

Jack Bullman

Sheila Cloud

George Hopson

Jack Bullman, manager of the Avionics Department; Sheila Cloud, director of the Center Operations Directorate; and George Hopson, project manager for the Space Shuttle Main Engine Project, have been named 2001 Meritorious Execu-

tives in the federal government's Senior Executive Service.

They are among a group of 29 NASA employees nationwide to receive the honor this year. Only 5 percent of the

Senior Executive Service members across all federal government agencies may receive the Meritorious Executive award each year.

The Presidential Rank Awards go to leaders who have provided exceptional service to the American people over an extended period of time. Agency

heads from across government nominate candidates, and citizen panels evaluate their qualifications. The president then

Space Station marks human presence milestone

NASA news release

The International Space Station marks a milestone in space history Friday — one full year of continuous international human presence in orbit. It's a year that has seen the space platform become the largest, most sophisticated and most powerful spacecraft ever built.

The International Space Station has grown from a 70-ton, efficiency apartment-sized foothold in orbit to a space laboratory of unprecedented capability. The station is now a 150-ton orbiting complex with more volume than a three-bedroom house.

Three crews, made up of four American astronauts and five Russian cosmonauts, have called the space outpost home. The Expedition One crew first opened the hatch Nov. 2, 2000, for a trailblazing shakedown mission. The successive expeditions have played a vital role in the station's rapid construction and have expanded its operational and scientific research capabilities.

Physical equipment inventory more than half complete

The Marshall Center's physical inventory of all government-owned equipment will continue through Dec. 31. As of Oct. 25, more than half of the 41,264 equipment items have been inventoried.

The inventory schedule is provided on the Web at: <http://inv2001.msfc.nasa.gov>

For Engineering Leadership

Dr. Jerry Westbrook, left, director of Distance Learning - Industrial and Systems Engineering and Engineering Management at the University of Alabama in Huntsville, presents the American Society of Engineering Management's National Engineering Leadership Award to Marshall Center Director Art Stephenson. The presentation was made at the organization's 22nd National Conference in Huntsville Oct. 13. Westbrook is general chair of the event.

Spot The Mascot Contest

Mascots to 'test' your SHE Program knowledge

by Lesley Guerin

Marshall Safety Office

The Safety, Health and Environmental (SHE) Communications Team is sponsoring the Spot The Mascot Contest in November, to support the Centerwide Voluntary Protection Program (VPP) activity.

The contest is designed to offer employees an interesting and fun opportunity to refresh their knowledge of the Safety, Health and Environmental Program at the Marshall Center.

When the Marshall Center's application to the Voluntary Protection Program is accepted, OSHA will schedule an onsite evaluation visit. One key purpose of the visit is to verify that Marshall's SHE Program is an active, vital force in all facilities and operations.

OSHA will verify this by randomly selecting and interviewing employees, to see what they know and think about the SHE Program. If people can't answer the questions correctly, OSHA may conclude that Marshall's safety and health program doesn't measure up to the SHE Program directives.

Beginning Nov. 13, the SHE Communications Team will sponsor a month-long

To earn a VPP Star, each of us must know and live the parts of the SHE Program that relate to the work we do.

contest to help employees prepare for the OSHA interviews. The Marshall safety mascots will make scheduled appearances throughout the Center, giving employees a chance to test their SHE Program knowledge and practice answering impromptu questions.

The Spot The Mascot Contest is open to all civil service and contractor employees, because OSHA may choose to interview anyone.

When you see a safety mascot, introduce yourself and ask for a test question. Questions will be based on things you should know in order to plan, work, make decisions and request assistance in the safest possible way at Marshall.

Safety mascots will give a small reward to each employee who answers a

question correctly. If you answer incorrectly, you'll get the proper answer and a small consolation prize. Mascots will spend only one hour in a building, so don't hesitate to step right up and test your SHE Program knowledge and aim for the VPP Star. Everyone who participates will receive a prize.

To correctly answer the mascot's questions, employees need to know the information provided on Marshall's VPP Web page, under Special Events. You are encouraged to review that information, and refresh your memory. You will then be ready for the Spot The Mascot Contest, and helping to improve our chances of earning the VPP Star at Marshall.

The SHE Communications Team will post information about the Spot The Mascot Contest on the SHE Web page and VPP Web page. The Safety mascot schedule will be posted there, with updates on "Inside Marshall" and in Centerwide Activity Notices. Watch these announcements to find your opportunity to join the Marshall team in aiming for success.

Executives

Continued from page 1

designates the recipients for the prestigious and unique award.

"These outstanding leaders represent the highest quality employees in NASA and show their commitment to making things better every day," said Marshall Center Director Art Stephenson. "We share their pride in receiving this Presidential recognition for their outstanding service."

Bullman, who manages approximately 225 civil service employees, is responsible for directing all avionics activities at the Marshall Center. He heads in-house development of a number of highly complex electrical and electronic systems, as well as space flight software. The Avionics Department maintains essential laboratory and software capabilities, while providing expert technical insight to other project offices, such as purchasing and managing contractor services and components.

Cloud has responsibility for 187 civil service employees and approximately 1,600 contractors who provide institutional services for the Center's information technology, facilities management, environmental and occupational health programs, protective services, industrial labor relations and logistics support services. The Center Operations Directorate also has lead responsibility for information technology services through-

out NASA, including integration of NASA's business processes.

Hopson is responsible for design, manufacture and operation of the Space Shuttle Main Engine, the most advanced liquid-fueled rocket engine ever built. As manager of the Space Shuttle Main Engine Project, he oversees more than 100 civil service employees and approximately 1,800 contractor employees who work on the reusable, high-performance engine. His responsibilities include maintaining an inventory of flight-ready engines, as well as design, development, production and implementation of upgrades to the engines to increase safety and reliability of the Shuttle system.

The Senior Executive Service manages the Presidential Rank Awards program that recognizes nominees who are strong leaders, achieve results and consistently demonstrate strength, integrity, industry and a relentless commitment to excellence in public service. They are judged on their accomplishments and abilities in the areas of leading people, leading change, achieving results, business acumen and building coalitions/fostering communication.

The writer, employed by ASRI, supports the Media Relations Department.

Program planning and control overview classes under way

A visit from Marshall Center Director Art Stephenson and Deputy Center Director Jim Kennedy to the first program planning and control overview class, "Contract Administration," emphasized the importance that senior management is placing on improving cost control practices at Marshall.

Byron Butler and Emil Posey from the Marshall Procurement Office led this class that was attended by 40 employees.

In his address to the class, Stephenson said, "What NASA does is strongly supported by the Administration and Congress; however, how NASA performs its roles and responsibilities is a major challenge for us all. Marshall has strong support for its missions, but improved project management, especially in the area of cost control, is a challenge for our Center."

In his introductory remarks, Kennedy stated, "Cost overruns are a

result of the failure to properly address all elements of a project – technical issues, schedules, cost and risk. Reducing the

Photo by Dennis Olive, NASA/MSFC

Stephenson talks to attendees at the Contract Administration class Oct. 24.

incidence of major overruns will entail integration of all these elements. Good program control requires teamwork at Marshall. These classes will provide the basis for improving our business management processes."

A series of 11 classes in Program Planning and Control are being offered to improve and develop the basic management skills of the Marshall workforce. All classes are designed to last not more than four hours and are offered in such subjects as: Work Breakdown Structure (WBS), Scheduling, Earned Value Management (EVM), Risk Analysis, Cost Estimating, Program Analysis, etc. The classes are open to all Marshall employees.

For more information, call Steve Patterson at 544-6260 or Janie Moyers at 544-7552. Enrollment is via AdminSTAR.

Marshall employees visit local agencies

As part of Marshall's annual Combined Federal Campaign (CFC), employees traveled by bus to participating agencies to get a first-hand look at where their money could go.

Agencies visited included the American Red Cross, Huntsville Botanical Gardens, Children's Hospital, Community Free Clinic, Boys and Girls Club, Senior Center, Pathfinders, Habitat for Humanity, the Ark, United Cerebral Palsy, Land Trust and Blount Hospitality House.

Another aspect of CFC, Community Service Days, started Oct. 22 and will continue through Friday.

With the Combined Federal Campaign ending its fourth week, Marshall team members have contributed nearly \$365,000 of the \$450,000 goal, with 47 percent participating.

Marshall Center Director Art Stephenson issued the challenge that if 90 percent of the Marshall workforce contributes to CFC, he will wash the car of a randomly selected employee.

Employees visited United Cerebral Palsy's Huntsville offices Oct. 24.

Photo by Dennis Olive, NASA/Marshall Space Flight Center

On Oct. 16, employees visited the Huntsville Children's Hospital and the Community Free Clinic.

CFC Contribution Countdown

As of Oct. 30, CFC contributions totaled \$364,276. Marshall's campaign continues through Nov. 19.

Redstone Arsenal access

Carpool riders, CDC customers need badges

from Marshall's Protective Services Department

Marshall's Protective Services Department is issuing picture identification badges to persons who have been authorized by Marshall Center employee parents to pick up and/or drop off children at the Marshall Child Development Center (CDC), and any person that drives onto Redstone Arsenal in an established carpool with a Marshall employee.

The badge will be issued solely for these purposes. No other access privileges will be granted.

A Marshall civil service or on-site contractor employee must sponsor the person obtaining the identification badge. The sponsor is responsible for the actions of the person and for ensuring the badge is returned upon request by Protective Services and when no longer required for the purpose issued, e.g., person no longer carpools with the Marshall sponsor.

- The sponsored person receiving the badge must complete the top portion of MSFC Form 1739 (above the line "TO BE COMPLETED BY CONTRACTOR SECURITY OFFICE") (Contractor Badge/Decal Application Card).

- Take the request to Bldg. 4312, 7 a.m. to 4 p.m. weekdays. The sponsor must accompany the person to Bldg. 4312 and sign the MSFC Form 1739 in the block "Typed Name and Signature of NASA Representative." By signing the form, the Marshall sponsor accepts responsibility for the person and acknowledges that the badge is issued for the purpose stated.

- While at Bldg. 4312, the sponsor will complete a document that provides sufficient justification for access to the Center e.g., picks child up at the Marshall Child Development Center, member of carpool, etc. Include the child's name, number of days per week and times on Center. For carpools, include the sponsor's phone number and building location where the on-site carpool member is dropped off.

- The badge will be valid for one year.

The Protective Services Department expects to see the requirement for a picture badge to gain unescorted access to the Arsenal to remain in effect for the foreseeable future, with the possibility that the change may be permanent.

For more information, call 544-4310.

Sverdrup employees support American Red Cross relief

Jacobs Engineering Group Inc.'s subsidiary Jacobs Sverdrup employees, and teammates — ERC, Micro Craft, Morgan, Qualis, and Raytheon — sponsored a fund-raiser to benefit those who were affected by the terrorist attacks of Sept. 11.

Employees were asked to consider making a generous donation to funds at individual levels that they deemed appropriate. The generosity from this group was outstanding, and the employees all expressed their thanks for a company-sponsored vehicle to contribute to this cause.

The Jacobs Sverdrup Marshall Center Group Employee Morale and Welfare Committee presented a check for \$7,500 to the local chapter of the American Red Cross. In thanking employees for their support, Lon Miller, Jacobs Sverdrup vice president and Marshall Center Group general manager, praised the team of employees for rising to the occasion in such a strong manner.

Photo by Jeff Wolfe, NASA/Marshall Space Flight Center

Charles Martin, left, of Sverdrup, presents a check for \$7,500 to American Red Cross representative Barry Porter.

Obituaries

Quillin, Mason E., 79, of Muscle Shoals died Sept. 21. He retired from Marshall in 1974 where he worked as an industrial specialist. He is survived by his wife, Betty Cameron Quillin.

Bullington, Ernestine, 81, of Guntersville, died Oct. 7. She retired from Marshall in

1969 where she worked as a program analyst.

Campbell, Edward C., 76, of Huntsville, died Oct. 9. He retired from Marshall in 1974 where he worked as an aerospace engineer. He is survived by his wife, Nancy M. Campbell.

Beddingfield, James W., 78, of Fayetteville,

Tenn., died Oct. 11. He retired from Marshall in 1979 where he worked as a general supply specialist.

Taylor, James C., 83, of Gulfport, Miss., died Oct. 14. He retired from Marshall in 1974 where he worked as a physicist and engineer. He is survived by his wife, Ruth Wink Taylor.

Center Announcements

Veterans Day Parade

Huntsville's Veterans Day Parade will begin at 11 a.m. Nov. 12. The parade route, assembling at 8:30 a.m. on Lowe Avenue near the Huntsville Hilton, will turn right on Williams, march north on Madison Street, turn left on Williams and then turn left on Monroe and march past the Von Braun Center, dispersing at the corner of Williams and Monroe. The route is approximately two miles long. Marshall Center employees are invited to participate. To participate, call Shelvie Miller at 544-0090 by Nov. 8.

Flu shots

The Marshall Medical Center has received its full order of flu vaccine. Employees who want this protection will get it. Flu shots will be available for all employees from 1-3:30 p.m., Nov. 7 in Bldg. 4200, room G-13E, and noon-3 p.m. Nov. 14 in Bldg. 4610, room 1054.

CI/CS training on Web

Continual Improvement and Customer Satisfaction (CI/CS) training modules are available on the Web at: http://masterlist.msfc.nasa.gov/training_modules. Marshall civil servants and contractors are asked to complete this training in preparation for the ISO 9000/2000 audit in late November.

Great Paper Airplane Contest

The American Institute of Aeronautics and Astronautics (AIAA) will hold its 8th Annual Great Paper Airplane Contest at 3:30 p.m. Nov. 9 at the University of Alabama in Huntsville, University Center Exhibit Hall. The event is free and open to all ages. The contest categories include aerobatics, time-of-flight, distance, accuracy and artistic. An awards ceremony will be at 5:15 p.m. For more information, contact Steve Noneman at 544-2048 or send an e-mail to: steven.noneman@msfc.nasa.gov

Upcoming Classes

Property management training

The National Property Management Association (NPMA) Rocket City Chapter's Fall 2001 Training will be from 8 a.m.-4 p.m. Dec. 5 in Morris Auditorium. David E. Russ III, director of Auxiliary Services at Alabama A&M University will teach a course on University Property. Lawrence W. Worthy, consultant, specializing in Training and Implementation of Corrective Actions for Property Management Systems will teach Liability and Progress Payment Inventory. To pre-register or obtain additional information, contact Lori Hawkins, (256) 750-6523 (lori.hawkins@tfetech.com) or Bill DeMarco, (256) 772-2637 (william.r.demarco@boeing.com) or for additional information only, call Debie Grissom, (256) 544-6572 (debie.grissom@msfc.nasa.gov).

This training is open to both contractors and civil service employees associated with either the National Contract Management Association (NCMA), National Property Management Association (NPMA), National Association of Purchasing Management (NAPM) or the International Facility Management Association (IFMA).

Clubs and Meetings

ASEM meets

Richard G. Rhoades, manager of the Research Institute, will speak at the American Society for Engineering Management's Tennessee Valley Chapter meeting at 11:30 a.m. Nov. 15 at the Tom Bevill Center on Sparkman Drive. Rhoades' research focuses on weapon system technical risk assessment, management of technology, propulsion analysis, strategic planning and organizational design. Cost for lunch is \$9.25. To attend, send an e-mail to Pam Takada at pam.takada@msfc.nasa.gov

Instrumentation Division meets

The Measuring Branch, Telemetry Branch and Radio Frequency Branch meet the first Tuesday of each month at 11 a.m. at the Redstone Golf Club Coffee Shop. For more information, call Tom Escue at (256) 232-1549.

Miscellaneous

Habitat for Humanity

The Morgan County Habitat for Humanity Chapter has received a grant for half the cost of a house that will be built starting in February 2002. This is part of the Habitat program called "Women Building a Legacy." It is designed to give women the opportunity to do all the planning and construction on a single home. For more information, call Melissa Dees at 340-9609 or send an e-mail to: hfhmc@earthlink.net.

Family Volunteering Day

The American Red Cross will hold "National Family Volunteering Day" Nov. 18 at 1101 Washington Street in Huntsville. Families select a one-hour block of time between 1 and 4 p.m. to make holiday cards, decorate holiday bags or make holiday ornaments for local hospitalized veterans. Each child will have the opportunity to make an ornament to take home. To participate, call 536-0084, ext. 210 by Nov. 12.

Dance lessons

Waltz and cha-cha dance lessons — at \$7 per person per night — will be held on Mondays in November at Saint Stephen's Episcopal Church on Whitesburg Drive. Intermediate lessons are from 7-8 p.m.; beginner lessons from 8-9 p.m. Bonnie Henley, qualified dance instructor at the University of Alabama in Huntsville for 15 years, will be teaching. If you have any questions, please call Woody Bombara at 650-0200.

Miscellaneous

- ★ PC games: Alien Invasion, Space Quest, \$5 each; MDK2, Alice, Deus Ex, Red Alert, \$10 each. 883-5396
- ★ Optimus CD8150 5-Disc changer & 26W speakers, \$100; encyclopedias & dictionaries, \$20; Sony VAIO computer & monitor, Lexmark printer, \$600. 722-9483
- ★ Ficus Benjamini tree, 9' high, \$50. 256-539-1316
- ★ Brunswick pool table, 2 yrs. old, paragon oak w/ cherry finish, navy blue felt, 1" slate, drop leather pockets, \$2,300. 883-6415
- ★ Pioneer stereo cabinet, glass door, asking \$45. 461-8369
- ★ Basketball pole, steel, \$25; TV stand with doors, \$45. 830-6584
- ★ Craftsman chain saw, 18" bar, 2.6 cubic inch engine, new, never started, \$130. 751-2460
- ★ 2000 Victory motorcycle, 94cc, 6K miles, \$10,800. 256-880-7656
- ★ National Geographic magazines, '73-'00 w/maps and binders for some years, \$200. 830-0338
- ★ Dining room table w/leaf, 4 chairs, china cabinet, \$500 obo; bedroom set; headboard, frame, dresser w/mirror, chest of drawers, \$200 obo. 883-8658
- ★ Two tickets, Titans vs. Steelers, Nov. 25, Section 309, Row JJ, Seats 15-16, face value, \$33 each. 233-2079
- ★ Four Noritaki "Sweet Leilani" 5-pc. place settings, creamer, sugar, salt & pepper, never used, \$200. 325-2699
- ★ Kenmore washer, \$95; Kenmore dryer, \$95; Whirlpool refrigerator, 17 cu. ft., frost free, \$130. 837-6649
- ★ Fire-King plate steel wood-burning stove, firebrick lined, trip-wall chimney set also available. 881-8545
- ★ Antique Duncan-Fyfe sofa, \$95; matching antique mahogany coffee table, \$40. 881-8674
- ★ Englander twin mattress and box springs, Posture Phase 3, pillow top, \$150. 830-2806
- ★ Hooker cherry entertainment center with pocket doors, 74" tall, holds 27" TV, \$300. 350-7461
- ★ Twenty-four 35mm slide trays, straight-line trays hold 40 slides, includes carrying case, \$18 for all. 881-4028
- ★ Thomasville queen bedroom set, solid oak, includes queen/full headboard, large dresser/mirror, nightstand, \$850. 722-5282 after 5 p.m.
- ★ Power Wheels Jeep Wrangler w/12V power

- system, 1 yr. old, \$180. 694-8848
- ★ King waterbed w/fully baffled mattress, headboard and 6-drawer pedestal, \$100. 721-9101 after 5:30 p.m.
- ★ Camper shell for S-10, GMC, etc. pickups, top of the line, hi-rise fiberglass, \$475. 922-1508
- ★ New burgundy lift chair with battery backup, \$500. 535-3100/weekdays or 883-8639 after 5 p.m.
- ★ Old Pharmacy/Apothecary glass collectibles, 16 pieces, \$30. 882-1097
- ★ Sony Trinitron color TV, Model KV-1546R/176R/1946R, Manufactured April 1981, with remote control/instruction manual, \$65. 533-5942
- ★ Sheldon belt-driven lathe, 110V, 10" swing, 36" between centers 3 & 4 jaw chucks, table included, \$1,500. 205-647-4949
- ★ Sofa and loveseat, cranberry/green/navy plaid with pillows, \$425 for both. 881-3527
- ★ China, German, fish set, six plates, platter, bowl, gravy dish, \$85. 882-6832
- ★ Weider fitness system home gym, \$200; Bruno Curb-Sider XL Model VSL-600 electric wheelchair lift for van or minivan, \$750 obo. (256) 509-4999

Vehicles

- ★ 1993 Mercury Tracer, 4-door, auto, ps, a/c, moon roof, 90K miles, \$2,595 obo. 883-4970
- ★ 1969 Camaro, new 400 SB by Mitchell Racing Engines, 4-speed Muncie, 3.73 rear end, new paint & upholstery, \$9,000 obo. 883-6415
- ★ 1996 Chevy Silverado pickup, 90K miles, \$8,500. 536-5791 between 6 & 8 p.m.
- ★ 1994 Chevy Tahoe, 6-cyl., 4x4, white w/gray, ps/pb/pw, AM/FM stereo cassette/radio, new Michelin tires, 128K miles, \$4,500 obo. (256) 881-7967
- ★ 1991 Nissan 300ZX, 2+2, red, auto, well-maintained w/records, \$9,900. (256) 582-4390/ (256) 673-2215
- ★ 2000 Chevrolet Suburban 1500LT, black w/tan leather, 20K miles, warranty, \$29,900. 350-1292
